

# A & L Canada Laboratories

JULY 3, 2012

## Plant Disease Diagnostics Photo App

If you are looking for a quick and effective way to diagnose a problem in your field try our new Plant Disease Diagnostics Photo App.

By sending a few quick pictures to the lab our team can give you their thoughts on what your issue may be. Just follow the instructions and in minutes the pictures will be at the lab. There is a **\$25.00** fee for submitting a sample.

However, if we recommend more diagnostic analysis the \$25.00 cost will be deducted from the additional analysis.

The app is available for free on

**Apple iPhone  
Apple iPad**

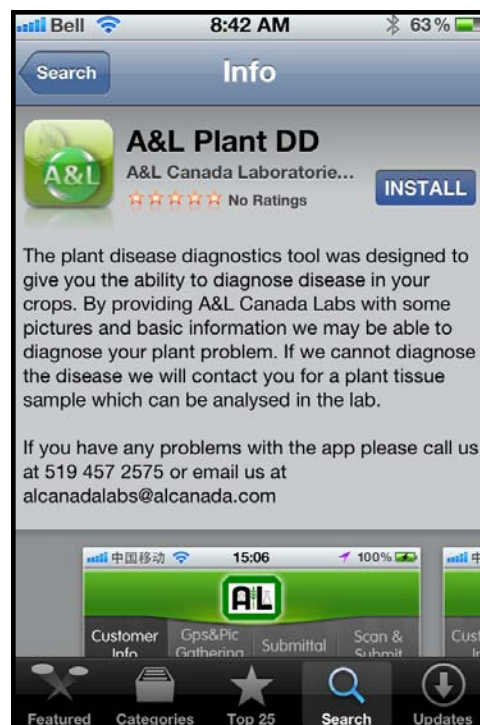

(Click on the apple logo to download or visit the apple store)

**Android Smartphone  
(Android Version 2.3 and  
Higher)  
Android Tablet  
(Version 2.3 and higher)**

(Click on the android logo to download or visit the google play store)

If you need any assistance please contact Chris Roelands @ 519 495 0409 or [croelands@alcanada.com](mailto:croelands@alcanada.com)
